César Gil Lao

Software Developer

👤 Profile

I am a software developer with 7 years of experience. I am passionate about creating visually striking, intuitive, scalable, and high-quality software with added value. I have extensive experience developing full web and mobile applications with technologies such as React.js, React Native, Flutter and Node.js. Also, I am always on personal side projects that allow me to learn about new tools and techniques that can improve the development process and ensure the quality of the final product.

💼 Experience

Software Developer at Limónbyte, Aragua, VE

Feb 2022 — Currently

Implementation of interfaces and functionalities in mobile and web applications, in some cases creation from scratch. Also, support to the Laravel/Nest.js backend team to complement the functionalities. The main niches are Uber-type apps, online stores and logistics management. Stack: React.js, React Native, Angular, SASS, Laravel, Nest.js,

Software Developer at Andysoft IT Services, Zacatecas, MX

Sep 2020 — Feb 2022

I developed ERP and POS systems from scratch, functionalities and maintenance in different web systems. All of these have hybrid mobile applications. Stack: Angular.js and PHP.

Freelance Software Developer en Alcaldía de Zamora, Miranda, VE

Mar 2020 — Sep 2020

As a part-time job I developed a tax system for one of the municipalities in the state. It has an environment for taxpayers and another for the employees of the collecting company. Stack: Angular and PHP.

Development and Database Coordinator at SITSSA, Caracas, VE

Dec 2017 — Feb 2021

I entered as a developer and during the course I was promoted to Coordinator of the Development and Database area. I managed several legacy administrative systems of the company and participated in the migration and unification of these to a new system.

🎓 Education

Electronic Mid Technician, Escuela Técnica Industrial Leonardo Infante, Caracas, VE

Jul 2016
